

**We can help with your
COVID-19 teledentistry needs**

VIRTUAL

CONSULTATIONS

Use secure live video to provide virtual consultations or more in-depth screenings.

2-WAY MESSAGING

Use secure 2-way patient messaging to screen patients before scheduling for an office visit.

HEALTHY IT SYSTEMS. HEALTHY SMILES.

SPECIALIZED IT SERVICES FOR DENTAL CLINICS

Just as oral health is foundational to overall wellbeing, an efficient and seamless IT system is the backbone of a successful dental clinic. At Cerana, we work hard to deliver the specialized IT support you need so you can focus on delivering healthy smiles.

THE SOFTWARE YOU NEED

We have the knowledge and experience with the practice management and imaging software you use everyday – solutions like Dentrix, PracticeWorks, Easy Dental, Schick, Dentrix Image, and others.

VULNERABILITY AUDITS AND BACK-UPS

Just like your patients have dental check-ups once a year to ensure the health of teeth and gums, consider scheduling a Vulnerability Audit of your technology with us. And when it comes to back-ups, having only one is as good as having none. Contact us today to protect your business.

HOW WE HELP

EMAIL NETWORK SECURITY

If your emails are breached, your reputation could be ruined. Cerana is an authorized reseller for GSuite, Office365, and other reliable platforms designed to help minimize this risk.

CLOUD CONSULTING

Using the Cloud is easy with the right training and advice. However, migrating your data safely to the Cloud can be difficult. For this, you need IT Expertise and Cloud Consulting Services. Cerana will safely migrate your system, solutions, and data to a secure cloud infrastructure.

24/7 HELP DESK SERVICES

With a busy practice and patients who depend on you for fast, effective service, you need the same from your Help Desk Services. You'll benefit from 24/7 Live Support and quick service from professionals experienced in the dental software and technology you use.

TAKE YOUR BUSINESS ONLINE WITH CONFIDENCE

OUR STORY

Our company name and its values are inspired by one of the planet's most essential animals. Apis Cerana is a species of honey bee, characterized by many aspirational qualities typical of its class. We embody the core values of honey bees. Hardworking, responsive, collaborative, and trusted to help you succeed.

FUN FACT: Our identity is inherently tied to dentistry! Honey not only stops the growth of dental plaque bacteria, it reduces the amount of acid produced, which stops bacteria from producing dextran so that plaque is also less likely to stick to the surface of teeth.
